QA+Win32™ V9.3

Enhancements made to the video testing and GPU temperature monitoring. Support for Microsoft® Windows® 7. Read on for more about new test updates!

For the past 27 years Eurosoft has taken the time to understand the needs and goals of its customers in order to develop and further enhance its already established computer diagnostic software. QA+Win32™ is a key component of Eurosoft's established suite of trusted diagnostic tools. No other windows® based diagnostic has more years of testing behind it.

For over 19 years, QA+Win32™ has become an essential tool for service and repair to ensure that PCs are reliably tested and validated, and when it is time for an upgrade QA+Win32™ is indispensable.

This latest release of QA+Win32™ will continue to keep system building and maintenance operations running smoothly – with Windows® 7 compatibility QA+Win32™ offers greater support for testing multiple devices under the latest operating systems. Along with improved video tests as well as support for the latest chipsets, this new release reaffirms QA+Win32™ as one of the world's leading Windows® based diagnostic products. Check out more of the excellent features and benefits below.

Reminder! Technical support is included with all your QA+Win32™ purchases and upgrades thereafter.

Customers buying QA+Win32™ have also bought: Pc-Check®, PC Builder™ Test Management Suite, ZeroData™ Hard Drive Eraser.

QA+Win32™ features The benefits to you

NEW Microsoft® Windows® 7 support	Test multiple devices under the latest operating systems.
Enhanced chipset support	System information for latest motherboard chipsets such as Intel Core i7.
Enhanced Video Testing	Monitor frames per second for benchmarking purposes and where available temperature monitoring of the Graphical Processor Unit.
Enhanced System Stress Testing	Improved testing for CPUs during the stress test to truly exercise the system.
Enhanced System Information	Identification of the latest CPUs and PCI devices. Now includes TV and video card capability.
